

### **CDAC Landscape Designer Position Opening**

Do you love helping communities and landscape architecture? If so, this position may be just for you!

The Landscape Designer works as a member of a project team under the direction of the Director and/or Project Manager to develop conceptual landscape designs for communities primarily in Virginia, but also periodically in adjacent states.

This position provides assistance in the development of conceptual designs, renderings, project reports, and preparations for community workshops and presentations.

This is a 1500 hour per year wage position.
