A. Wooden park shelter with crushed gravel trails, park information center on right and optional restroom on the left.

B. Park lawn with recycled plastic picnic tables among newly planted trees with park sign (right) and pavilion (left) in the background.

C. Reflection area surrounded by colorful perennial plantings and forest with a decorative gravel walking surface. Bench line to outer edges of the space for small-medium group seating.

Woodchips provide a stable ground for children to play on in the play area.

Recycled plastic picnic tables provide ample space for eating and socializing.

Mixed size gravel provides stable, handicap friendly trail surface for visitors.

Small boulders and logs for improving motor skills.

Rustic exercise equipment allows adults and older children to engage in station style fitness routes and open space allows for more variety of pickup games and other activities.
